

Retail and Hospitality *Facilities*

Robertson is your ideal resource for attractive, functional, and distinctive retail facilities. With flexible building solutions that can be tailored to any application or requirement, you will find that our custom-engineered commercial steel buildings offer the versatility of multiple structure options.

Whether you're building strip centers, shopping centers and outlets, malls, stand-alone retail stores, restaurants, gas stations, or mini marts, Robertson has a solution that fits your needs.

Count on Robertson's Experience with Retail and Hospitality Facilities:

- Our design capabilities include large, clear spans that provide wide, open spaces that are perfect for dazzling retail and retail floors that easily accommodate the flow of customer traffic
- Engineering, drafting, and project management expertise is available for the design of structural systems
- Robertson metal buildings can integrate with traditional construction materials such as glass, masonry, brick, stone, and many other popular veneers
- Performance-proven quality materials used in the manufacturing process ensure savings on future upkeep and maintenance costs
- Limitless design flexibility allows you to customize floor space for your specific building needs

Each Robertson building is individually designed and engineered to meet your exact requirements as well as local building codes. Column-free interiors can provide uninterrupted floor space, high ceilings open the facility up to more natural light and create a stylish design, and lofts can be added for additional storage space.

Architectural designs ensure a beautiful building and faster construction means your Robertson building is ready for occupancy sooner.

Robertson buildings are complete solutions for retail and hospitality facilities, and they consistently rank about the industry standards in terms of product quality. You can benefit from budget-friendly initial costs and fast construction to meet occupancy commitments. Meeting all building codes, custom building systems have limitless design flexibility and are customized to suit any design you have in mind.

We use only the most durable and cost-efficient construction materials that work well with a variety of conventional exteriors, including glass, brick, stone, and other popular veneers. With Robertson, you can be assured that your building will reflect your company's image.

Retail and hospitality construction is a significant part of Robertson's business, so when it comes to designing your facility, contact us. We can provide a single source of responsibility and work for you with a custom solution that balances function and aesthetics.

With over **150 years of experience**, our reputation speaks for itself and it is your assurance that Robertson will bring your vision to life.
